Every Product
Changes Lives

Crafted entirely by hand, this beautiful flower pot evokes cheerful bouquets in starlight.

Crafted of ceramic, this tea set features playful, multicolored floral motifs that are painted by hand to add beauty to your tableware.

The hand-painted ceramic set includes cruets for oil and vinegar with cork stoppers, as well as a pretty rectangular tray for an appealing presentation.

Javier Servin crafts diminutive salt and pepper shakers in greens and blues to set a scene of serenity. Meticulously painted by hand, the high-fired ceramic features glossy textures in low relief.
